

Basic skills in literacy

- Spelling more complex words expected at year 3.
- Using correct punctuation including speech marks and apostrophes.
- Referring to the text when answering questions.

Basic skills in Maths

- Use facts for addition and subtraction.
- Using times tables 3, 4 and 8 to multiply and divide.

Music
Pupils will learn to play instruments with increasing confidence and control. They will compose music by combining different sounds to for a journey in different modes of transport. The children will use different percussion instruments and look at musical elements including texture, timbre and dynamics used to describe a journey. They will discuss how their work can be improved.

Science
The children will explore forces and magnets by comparing how things move on different surfaces. Noticing some forces need contact between 2 objects but magnetic forces can act at a distance. Observe how magnets attract or repel each other or materials. Comparing and grouping materials if they are attracted to magnets.

Literacy:

Writing skills & genre:

- Plan and draft writing to understand structure, vocabulary and grammar.
- Organise work into paragraphs around a theme.
- Propose changes to grammar and vocabulary to improve consistency.
- Proofread work for spelling and punctuation mistakes.

Fiction – Adventure story

- Create a plot, setting and characters.

Non-Fiction – Non-chronological report

- Organise work using heading and subheadings.

Reading Skills

- Apply growing knowledge of root words, prefixes and suffixes to read and understand meaning of new words.
- Read further exception words.
- Read a range of appropriate texts accurately and fluently.
- Re-read and read ahead to look for clues to determine meaning.
- To research information.
- Discuss words and phrases that capture the readers interest.
- Use dictionaries to check meanings of words read.

Curriculum Map: Transport

Numeracy:

Geometry:

- We will recognise 3D shapes in different orientations by the face, edges and vertices. We will explore the different lines in 2D shapes and classify them according to their properties.

Time:

- We will tell and write the time accurately. We will look at 12 and 24-hour clocks.

Statistics:

- We will create our own pictograms and answer questions about them. We will sort data using Venn and Carroll diagrams.

Addition and subtraction:

- We will add and subtract numbers mentally and using formal methods of columnar addition and subtraction. We will estimate our answers and use the inverse to check. We will solve addition and subtraction problems including money.

Multiplication and division:

- We will write and calculate mathematical statements for multiplication and division. We will use mental strategies and formal written methods. We will use methods we know to solve word problems and missing number problems.
